Introduction of Add on Course/ Certificate Course at MAIMS

Prepared and designed the 30 hours of Certificate course content on *“Understanding Gender, Inequality, Intersectionality, Social Action: Feminist Perspective”*. The aim of the course is to raise gender awareness and sensitization in the community. It also aims to look at issues through the lens of India's diversity, as well as an attempt to understand power relations—historical, structural, economic, and political—that define the male and female relationship in a socio-cultural context, and that originate from deeply rooted patriarchy and age-old dominance structures. The course contains 14 modules of two hours each that address how gender is understood, constructed and performed. Online program received an overwhelming response from different quarters of academia and received more than 125 registrations from different premier institutions across country.
