“5G Application: Myths and Realities”

09th June 2021

Report

Webinar session on 5G Application: Myths and Realities was delivered by Mr. Rohit Gupta, Implementation Manager, Ericsson, Australia. The purpose of the webinar is to enlighten the participants about the 5G network. 5G is the fifth generation of cellular networks, bringing new capabilities that will create opportunities for people, businesses and society. Therefore, it became essential to refute all the myths attached to 5G and present facts.

Introductory remarks and welcome address was given by Ms. Sarita Bansal Garg, Associate Professor, Department of Business Administration, MAIMS. She stated the importance of cellular networks and put a great emphasis on words that have the power to make and break things. She further welcomed all the dignitaries, HODs, senior faculties, speaker of the day and participants to this event.

The event proceeded with the theme address of Prof. (Dr.) Vijay Kumar Khurana, Head, Department of Business Administration. He expressed his gratitude for this opportunity of holding the event on 5G application which is the need of the hour. He further mentioned about all the successful events conducted recently by the department.

The event was further proceeded with the address by Prof. (Dr.) Ravi Kumar Gupta, Director, MAIMS. He encouraged and welcome all the participants. He emphasized that in today's times it is very essential to know about cellular networks. He concluded with remarks that he is looking forward to meet all the participants again for future events. He wished success to the organising team.

The event was then addressed by MAIMS Alumnus, Mr. Mridul Bhattacharya who expressed how the foundations are laid during under graduate and post-graduate program helped in the real corporate world.

Mr. Rohit Gupta delivered session on the 5G. He showed the evolution from 1G to 5G. He also presented the network structure of 4G and 5G. He also provided the advantages and
