

MANTHAN - referred to as “churning”. In Hindu scriptures, katha of ‘samudra manthan’ is well eminent. It is churning of the ocean to bring the 'amrit' hidden in it to the surface. We provide a safe space for the enhancement of knowledge and the moulding of minds. Just like churning of curd makes better, **MANTHAN, The Literary and Debating Society of MAIMS**, churns the entire department to bring out the literary adroitness of the students. Each member of the society pours the best of their efforts so that it could flourish as it's a popular saying 'Two heads are better than one'. It's not just a society but 'A Family'.

Established in 2016 as a literary society, later expanded to add the department of Debating to it in 2021. From poetry to debates and from content writing to panel discussions, the society covers all ingredients of literature.

Objective:

The main objective of the society is to polish, enhance and inculcate literary and oratory skills in students who may otherwise not feel confident enough to come to limelight. Each member of the society pours the best of their efforts so that it could flourish.
