The Chief Guest, IAS puts emphasis on playing sports which can also help children to develop their social skills and help to set them up for positive relationship building for life. Through an event like a sports day children get the chance to show leadership, teamwork and communication skills, as they interact with new people and face new challenges. Take for example a three-legged race. An event such as this would encourage children to work together to achieve the same goal. Moreover, this new found self into the classroom in some confidence has been shown to transfer cases, as children shake of the anxiously or doubt in their mind about speaking in front of class or answering a question, they are not sure about.

This might be the trickiest element to get right as constructive criticism needs to be well throughout to ensure the child can process the information in the right way. This annual sports day meet consists of various games for the students of MAIT and MAIMS. This event was organized in two days. On day one screening of various games were organized. There were plenty of registrations by the MAIT and MAIMS students. Then semi-finals and finals were done on February 01, 2019. Events continued till late evening.
