Best out of Waste Competition

(February 01, 2018)

"Recycling things is like magic that turns ordinary things into extraordinary."

The three 'Rs' stand for: Reduce, Reuse and Recycle. They are a part of the waste hierarchy which is used to protect the environment and conserve resources through a priority approach. The aim is to get maximum practical benefits from products and to generate the minimum amount of waste. The Best out of Waste simply means to make or to create innovative and attractive things from the material we do not use anymore. In an initiative to generate the habit of using old things to create beautiful crafts among students, MAIMS organized 'Best out of Waste Competition' in its campus on February 01, 2018. The objective of the competition was to create love for environment by making best out of waste with help of recyclable things. Best out of waste is one such craft which follows environmentally friendly principle and at the same time creates useful objects out of waste products.

27 students used their imagination and creativity to make innovative things. a teapot and a cup, hat, paper vase, wall hangings, greeting cards, Utility box, toys and paper jewelry and many more. Fantabulous ideas were demonstrated using material like newspaper, old CDs, used plastic bottles, ropes, ice cream sticks, bangles, shoe boxes etc. All the things which are waste in our day-to-day life were used in constructive manner and variety of things were made from them. The creativity displayed by the students was mesmerizing. The competition promoted artistic fervour in our leaders of tomorrow and developed sense of love for environment.

Winners:

First Prize: Team 8: Tokesh Chaudhary (Fifth Semester, Third Year, BCom.); Pawan Jain (Fifth Semester, Third Year, BBA)

Second Prize: Team 2: Ishita Gupta (First Semester, First Year, BBA); Bhupesh Mepal (Third Semester, Second Year, BBA)
