## **BLOOD DONATION CAMP 2017– REPORT**

A Blood donation camp was organized by Nav Chetna Club of MAIMS, in collaboration with Rotary International Club and Red Cross Society on October 11, 2017, through which more than 170 units of blood was donated by both students and the staff members of our college. The camp took place in the main auditorium of MAIMS. The drive began at 11.30 a.m. with a short inaugural function where in our founder chairman Dr. Nand Kishore Garg expressed his gratitude to the Red Cross Society of the college for its continuous endeavor in this regard. Our honorable Director Prof. (Dr). MK Bhat encouraged all the donors with words of encouragement. He thanked all the donors for the Noble steps they have taken and to help the fellow brethren. It is a gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the health experts. We need

16 million units of blood every year but just about 92% are being donated. On the grounds of Voluntary Blood Donation Programme of government, our college has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

To watch over the entire process and to collect the blood, a team of doctors were put in charge. The college had also arranged for a resting room for anyone who felt dizzy or sick after donating blood. Volunteers also had come to help the school organize the blood donation camp. It was assured that the blood donors were very well hydrated before the donation and were given fruits, Biscuits and juices after donating the blood in order to reenergize themselves. The blood donors were provided with a blood donation certificate card and small gift hamper.
