Suggestions if any

1. Can increase the amount of co curricular activities undertaken to develop the students as per the industry standards instead of laying focus just on bookish knowledge;
2. A better & structured manner of getting things done from students with a proper timeline which is informed to students well in time instead of last minute rush;
3. A better internship and placement opportunity scenario would benefit the institution-the internship placement committee was working hard to get the placements however a little effort from college and management would be appreciated not only for the placements but also for overall other activities.
