Faculty Coordinators: Mr. Aashish, Assistant Professor, Dept. of Computer Applications

Ms. Neetu Agarwal, Assistant Professor, Dept. of Computer Applications

Student Coordinators: Gohit Gupta, President, AlgoRhythms

The AlgoQuest: The Treasure Hunt Competition, organized by AlgoRhythms – The Tech Fusion Society of MAIMS, was successfully held on 14th February 2025 at the MATES Campus. The event witnessed an enthusiastic turnout, with around 40 students participating, including some on-the-spot registrations. The treasure hunt was designed to test participants' problem-solving skills, teamwork, and creativity, making it an exciting and engaging experience.

The event was conducted in two rounds. The first round was a knockout challenge, where participants were required to collect a specific number of items within 15 minutes. The teams that managed to gather the highest number of items in the shortest time advanced to the next stage. Based on their performance, six teams qualified for the final round. The second and final round of the treasure hunt featured a series of interconnected clues, beginning from Computer Lab 957, which teams had to decipher and follow to complete the hunt successfully.

Adding to the excitement, several sponsor stalls were set up, including a selfie booth, a tarot card reading stall, and a baking stall, providing participants with additional engagement and entertainment throughout the event. The presence of Prof. Dr. Rajni Malhotra Dhingra, Director, MAIMS further enriched the occasion, as she motivated the students with her encouraging words and officially announced the results of the first round, increasing the anticipation for the final challenge.

Neetu and Mr. Aashish*

The event was marked by high energy, active participation, and a competitive spirit, making it a grand success. Participants showcased exceptional teamwork and enthusiasm, turning the treasure hunt into an unforgettable experience. The well-structured format, engaging challenges, and interactive elements made AlgoQuest 2025 a fun-filled and intellectually stimulating event, leaving participants eager for more in the future.
