Educational cum Environment Field Visit to Amrit Udyan, New Delhi

Date: February 21st, 2025

No. of Students: 60

Timings: 10:00 AM onwards

Venue: Amrit Udyan, Rashtrapati Bhawan, New Delhi

Faculty Coordinators: Mr. Aashish, Assistant Professor, Dept. of Computer Applications

Dr. Shivangi, Assistant Professor, Dept. of Computer Applications

As part of the Environmental Studies (EVS) curriculum, a field visit to Amrit Udyan, New Delhi was organized on 21st February 2025 for BCA 1st Year students. The primary objective of this visit was to provide students with practical exposure to environmental conservation, biodiversity, and sustainable landscaping practices. The visit allowed students to explore the role of green spaces in urban environments and understand the importance of plant diversity and sustainability. The visit commenced at 9:00 AM, with all 60 students and faculty members departing from the institute. Upon arrival at Amrit Udyan, students were taken on a guided tour, where they observed a variety of indigenous and exotic plant species, including medicinal plants and seasonal flowers. They learned about sustainable gardening techniques such as rainwater harvesting, organic composting, and eco-friendly pest control methods. These practices highlighted the importance of sustainable landscaping and resource management in maintaining ecological balance.

Throughout the visit, students gained insights into urban biodiversity conservation and its role in enhancing air quality and reducing urban heat. They understood the impact of green spaces on overall environmental health and how such areas contribute to sustainability in modern cities.

Some Group Photographs of BCA 1st Year students taken during the visit to Amrit Udyan, Rashtrapati Bhawan, New Delhi on 21st February.

Students found the visit to be highly informative and enriching, as it provided them with real-world examples of ecological preservation. They appreciated the well-maintained landscapes, the diversity of plant species, and the serene ambiance of Amrit Udyan. Many students expressed that witnessing sustainable practices firsthand helped them better understand their significance and implementation.
