Collaborating Unit/ Name and designation of Resource Person: The Placement Team

Date of the Event: 9th April, 2025

Time of the Event: 11:00 AM Onwards

Mode: Offline

Number of Students participated: 45

The Training and Placement Cell of the Department of Commerce organized an insightful and educational industrial visit to Safexpress Pvt. Ltd., on 9th April, 2025, one of India's leading logistics and supply chain management companies. The visit was curated with the aim of bridging the gap between theoretical learning and real-world application by providing students with the exposure to the practical aspects of logistics, transportation, and warehouse operations.

Safexpress Pvt. Ltd., established in 1997, is renowned as the “Knowledge Leader” in the supply chain and logistics sector. With a network that spans across 31,000+ pin codes and over 3,000 GPS-enabled vehicles, the company specializes in express distribution, logistics, and supply chain consulting services.

Safexpress caters to diverse industries including e-commerce, FMCG, apparel, automotive, and healthcare, ensuring time-definite deliveries with its robust infrastructure of 82 logistics parks across the country.

During the visit, the students were taken through a detailed tour of the logistics park and shown numerous operational processes such as inbound and outbound logistics, warehouse management, real-time tracking systems, and safety protocols. The experts at Safexpress provided in depth explanations and demonstrations, offering valuable and practical insights into inventory handling and how technology is integrated into modern logistics.

The hands-on experience of seeing goods move through the supply chain gave the students the opportunity to connect their classroom knowledge with actual industry methods. Moreover, they learned how Safexpress ensures timely and damage-free deliveries, even in distant corners of the country.

The visit was not only educational but also interactive. Students got the hands-on learning experience and the chance to directly clear queries from industry professionals and understand the complexities and challenges involved in logistics operations. The practical exposure to a leading logistics firm guided the students and helped them gain a better understanding of theoretical concepts like supply chain management, logistics operations, and customer satisfaction metrics.

During the visit, snacks were provided to the students, enhancing their experience and keeping their energy levels up throughout the day. The refreshments offered a delightful break between the informative sessions and practical demonstrations.

The industrial visit proved to be a valuable learning opportunity for the students. It exposed them to the extensive and evolving world of logistics and displayed how companies like Safexpress are capitalizing on innovation and technology to streamline operations and improve customer satisfaction.

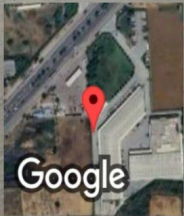

Beyond theoretical knowledge, the visit ignited the fuel in many students. Witnessing the fast-paced, structured, and efficient working of a renowned logistics firm instilled a sense of ambition and inspired them to consider logistics and supply chain as a career option.

The credit for this initiative goes to Prof. (Dr.) Manju Gupta, Head, the Department of Commerce, who worked under the able guidance of Prof. (Dr.) Rajni Malhotra Dhingra, Director, MAIMS. Their constant support and encouragement helped in the successful accomplishment of this visit.

Here are a few glimpses of the visit:
