## **Webinar on Skill Development for Sustainability: Upskilling and Enhancing Capacity.**

On 25<sup>th</sup> March 2025, Maharaja Agrasen Institute of Management Studies conducted an insightful webinar titled " Webinar on Skill Development for Sustainability: Upskilling and Enhancing Capacity." The event aimed to educate students on the importance of sustainability. The session was hosted virtually and featured distinguished speakers from the industry.

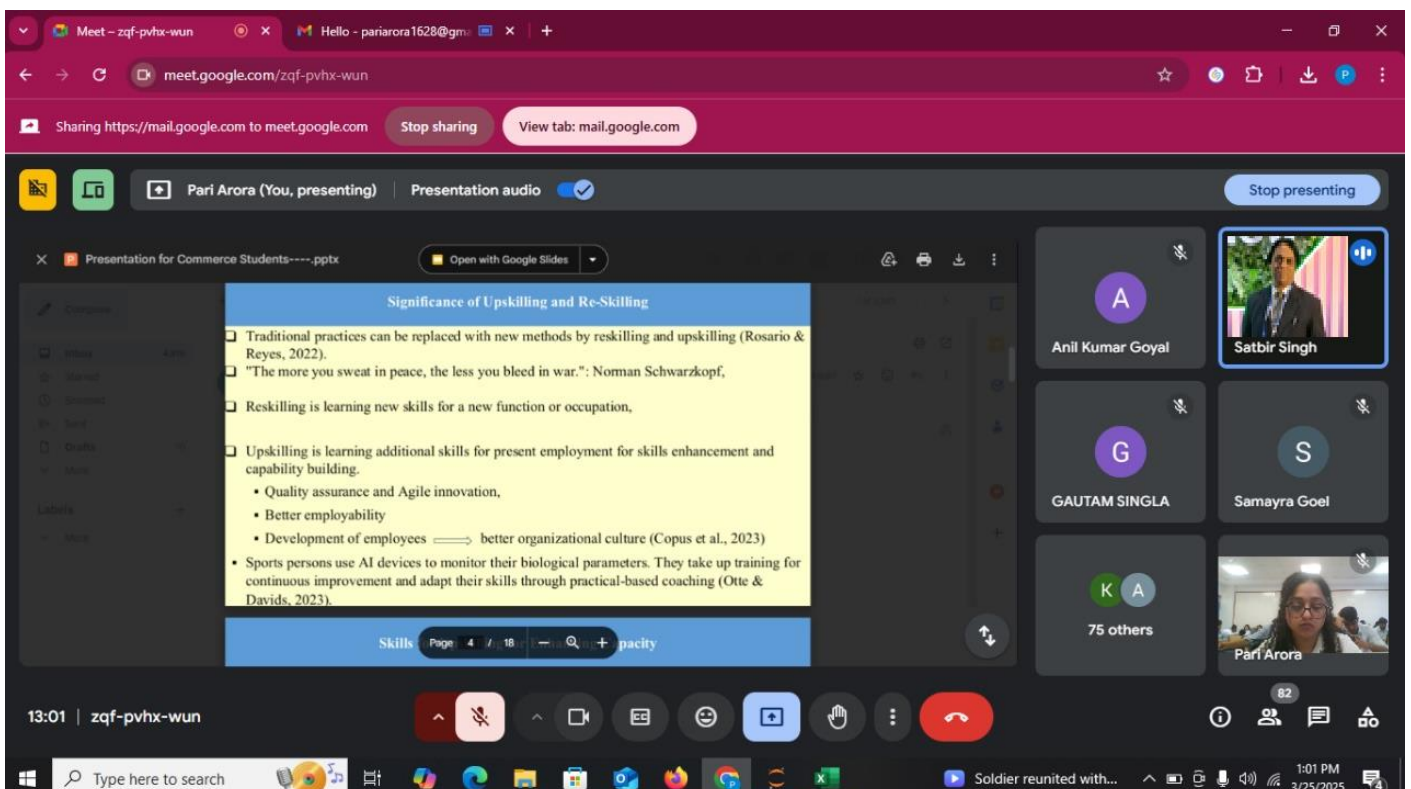

The webinar featured keynote speaker **Dr Satbir Singh**, Sr. General Manager (Procurement & Expediting) in Reliance Industries Ltd., Mumbai. He is Sr. General Manager (Procurement & Expediting) in Reliance Industries Ltd., Mumbai. He obtained his PhD in Supply Chain Management from the Institute of Business Management, GLA University, Mathura, India. He has more than 32 years of working experience in procurement, contracting, and supply chain management domains in the petroleum and petrochemical industry. Previously, he had worked for M/s Indian Oil Corporation Ltd., M/s Indian Petrochemicals Corporation Ltd., and M/s Gujarat Fluorocarbons Ltd. He played significant procurement roles in polyester and petrochemical projects of Reliance Industries and for distribution centers of Reliance Retail pan India. He was also involved in mega project J3 at Jamnagar Refinery of Reliance. He passed out with a B.E (Industrial and Production) from Delhi College of Engineering (now renamed Delhi Technological University) in 1991. He has a Project Management Professional (PMP) certification from Project Management Institute (USA), a Post Graduate Diploma in Operations Management from Symbiosis (Pune), a Post Graduate Diploma with distinction in International Purchasing and Supply Chain Management from ITC, Geneva, and a certification in Business Analytics from SIES College of Management, Navi Mumbai. He holds membership of the Indian Institute of Materials Management, Indian Institution of Industrial Engineers, Project Management Institute, and All India Management Association. His research interests include research in supply chain management using Multi-Criteria Decision-Making methods and SPSS tools.

Participants included students and faculty members to gain practical insights into skill development for sustainability.

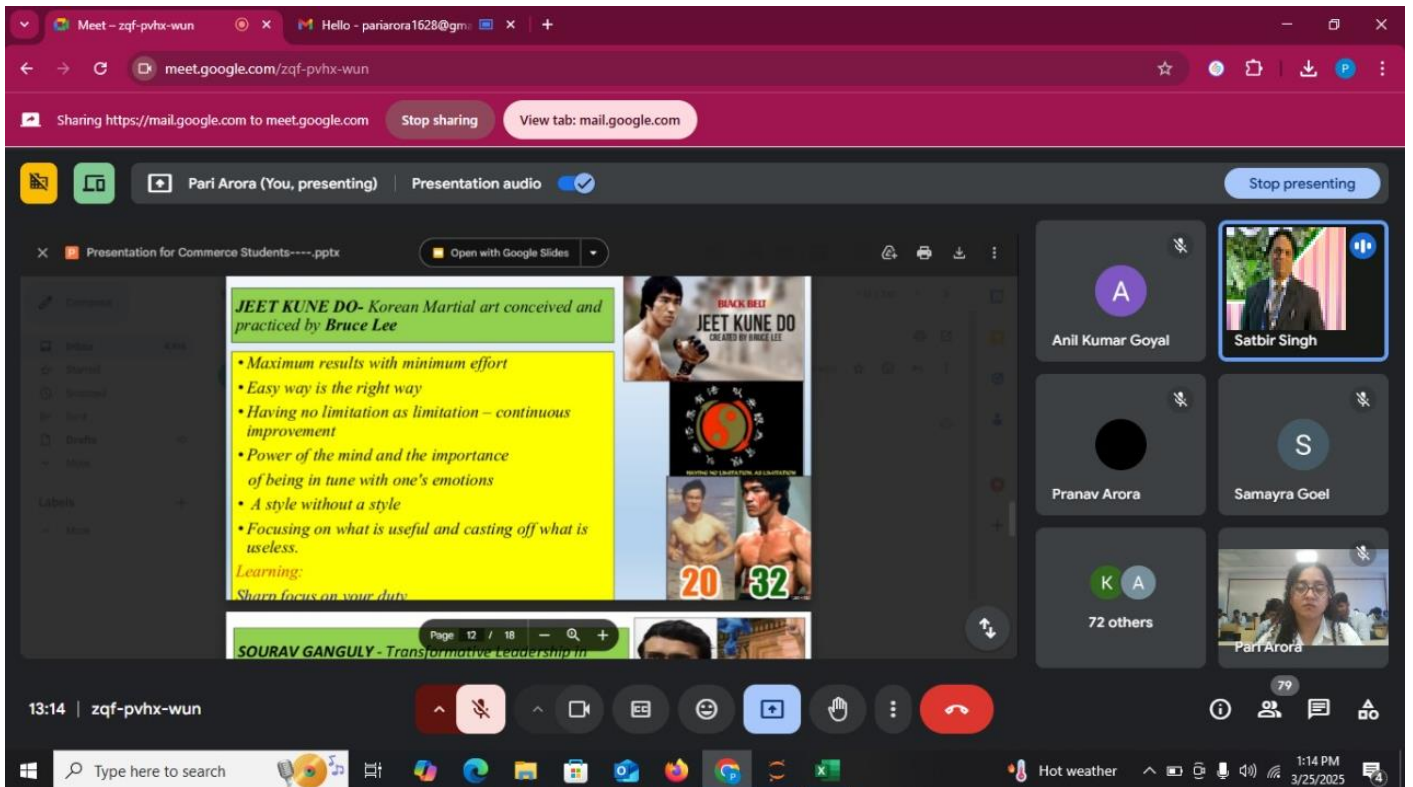

### Key Topics Covered during the session:

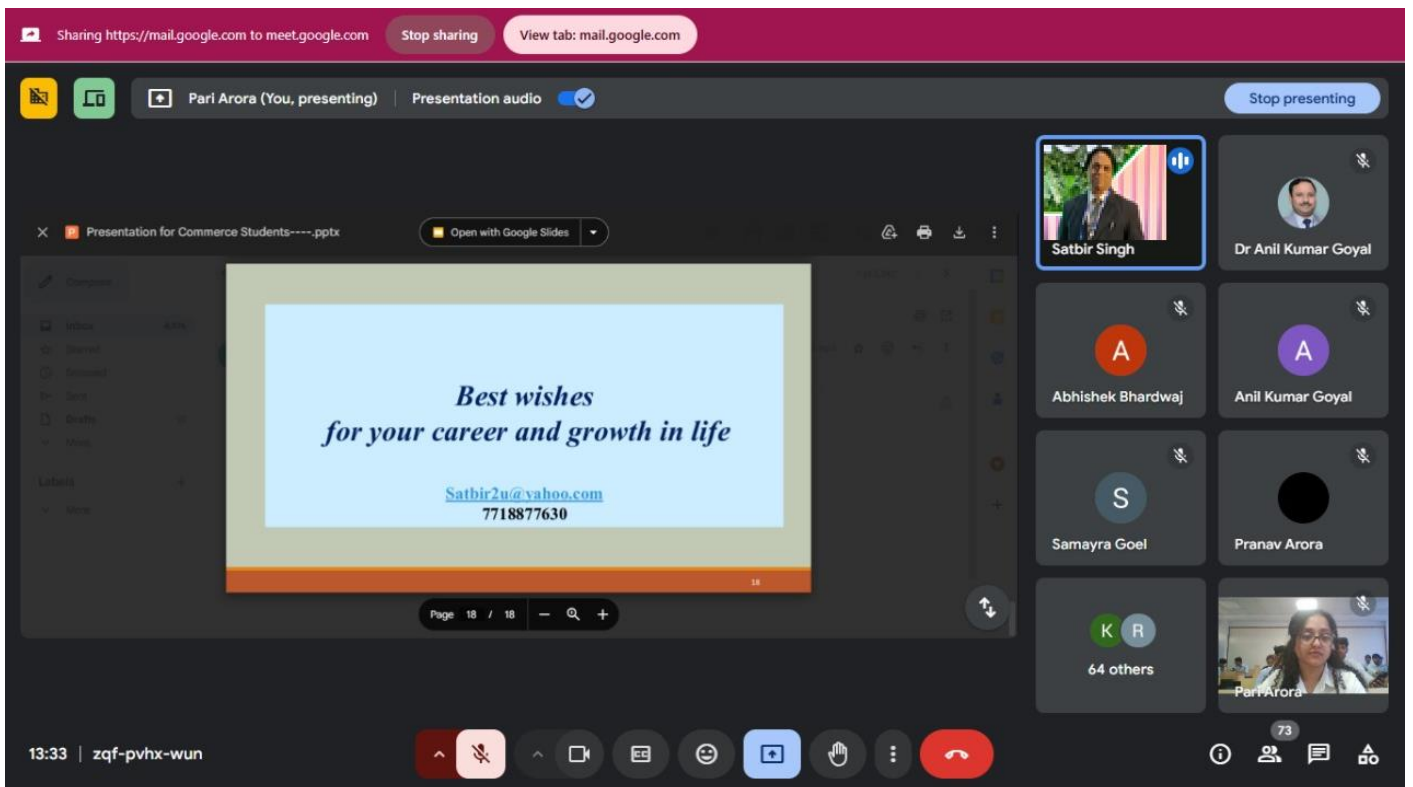

1. Need for upskilling and reskilling
2. Approach for upskilling and reskilling
3. Essential requirements for upskilling and reskilling

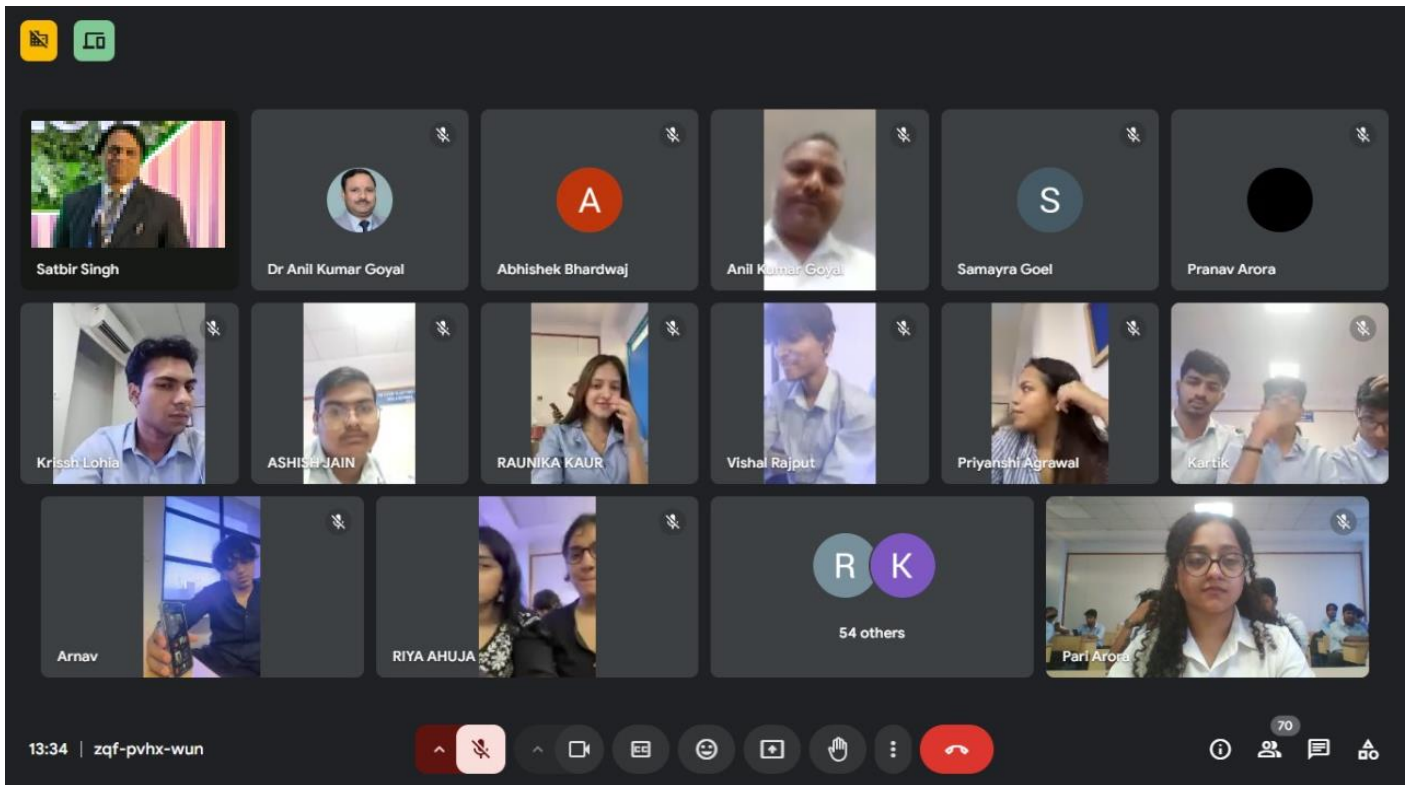

Speaker explaining significance if upskilling and reskilling

Speaker explaining the approach for upskilling and reskilling

Contact Details of resource person for future reference

Audience attending the session

The webinar successfully provided attendees with a deeper understanding for skill development for sustainability. The interactive nature of the session allowed participants to gain practical insights of how sustainability works in industry. The event concluded with positive feedback from attendees, highlighting the importance of such educational initiatives in bridging the gap between theoretical knowledge and practical application in the prominent industries like Reliance Industries Limited.
