# ABOUT TASHKENT STATE UNIVERSITY

Tashkent State University of Law aims to be a future-oriented institution, integrating science, education, and social processes to serve Uzbekistan's prosperity. Its mission encompasses training highly skilled personnel with deep knowledge, leadership, and problem-solving skills, focused on justice and the rule of law. The university strives to be a leading scientific and educational hub, driving progress in law and governance through innovation, research, and international cooperation. It seeks to foster connections between education and law enforcement, promote accessibility and inclusivity, and develop international legal standards and national legislation. By doing so, the university aims to contribute to the state's and society's well-being, while advancing Uzbekistan's leadership in scientific research and technology.

# ABOUT
# MAIMS INTERNATIONAL CONFERENCE
# (AIPDT 2026)

The international conference on AI, Intellectual Property Rights, and Digital Technologies in a Globalized World offers an interdisciplinary platform to examine how artificial intelligence and data-driven technologies are reshaping law, markets, and organizational governance. As digital innovation transcends national boundaries, the conference focuses on emerging challenges in data governance, data management, intellectual property, and digital risk in a globally interconnected economy.

The conference addresses the management and governance of advanced technologies, including AI/ML systems, blockchain, smart contracts, digital assets, semiconductors, and secure digital infrastructures. Key themes include privacy-preserving AI, cybersecurity and threat detection, algorithmic accountability, platform economies, standard essential patents, IP licensing, and access to essential data, highlighting the strategic and regulatory implications for organizations and policymakers.

Bringing together academics, policymakers, industry leaders, legal professionals, and technologists, the conference promotes dialogue on responsible AI, ethical design, sustainable innovation, and digital transformation strategy. Through discussions on AI-enabled business models, commercialization, competition, and cross-border IP and data disputes, the conference seeks to inform effective policy frameworks and managerial practices for a secure, innovative, and inclusive digital future.

# AIMS AND OBJECTIVES

- To analyze contemporary challenges at the intersection of artificial intelligence, intellectual property rights, digital technologies, and data governance in a global context.
- To facilitate interdisciplinary scholarly dialogue on the legal, technological, ethical, and managerial dimensions of AI-driven digital systems.
- To examine governance and management frameworks for data, platforms, cybersecurity, and AI-enabled innovation.
- To critically assess regulatory, ethical, and policy responses to issues of privacy, competition, market power, and global IP disputes.
- To contribute to academic research and policy discourse on responsible AI, sustainable digital innovation, and global digital governance.

## 👉 Conference Highlights

- International Speakers & Global Expert
- Multidisciplinary Research Presentations
