Report on Educational Visit to Forensic Science Laboratory

Academic Year: 2025-26

Name of Event: Educational Visit to FSL

Organizing Unit: Internship and Placement Committee, Department of Law, Maharaja Agrasen Institute of Management Studies, GGSIPU, Delhi.

Date of the Visit: 6th April 2026

Time of the Visit: 01:30 PM Onwards

Number of students participated: 15

The students of BALLB and BBALLB programmes along with faculty members Dr. Aarushi Agarwal & Ms. Ananya Dutt, undertook an educational visit to the Forensic Science Laboratory as part of their experiential learning initiative. During the visit, experts provided a comprehensive demonstration of cyber forensics, explaining the methods used in the identification, preservation, analysis, and presentation of digital evidence. Special emphasis was laid on the concept of the chain of custody, highlighting its critical importance in ensuring the integrity and admissibility of evidence in legal proceedings. The students were given practical insights into how digital footprints are traced and how cybercrimes are investigated in real-world scenarios.

In addition to the cyber forensics session, an engaging interaction with an expert on polygraph tests was conducted, where the scientific principles and legal implications of such tests were discussed. The visit proved to be highly enriching as it bridged the gap between theoretical legal education and practical application. Such educational visits play a significant role in enhancing students' understanding of forensic processes, developing critical thinking, and

preparing them for future legal practice by exposing them to interdisciplinary aspects of law and science.
