“Workshop on Risk Management and Commodity Markets”

The Department of Commerce, Maharaja Agrasen Institute of Management Studies (MAIMS), organized a workshop titled “Risk Management and Commodity Markets” on 25 September 2026 under the aegis of IQAC. The session was conducted in offline mode at Room No. 984, 8th Floor, 9th Block, MAIMS.

The workshop featured Mr. Chandresh Kumar Gupta, Finance Educator, Securities Market Expert and Motivational Speaker, and SEBI-SMART Trainer, as the resource person. The session was designed to introduce students to the importance of understanding financial-market risks and the role of commodity markets in the broader financial system.

The workshop aimed to help students develop an understanding of financial risk, explore the basic functioning and dynamics of commodity markets, and appreciate the role of strategic thinking in making informed decisions. It also provided an opportunity to connect classroom concepts with practical perspectives from a finance and securities-market professional.

Through the session, students were encouraged to approach market-related decisions with awareness of risk, analytical thinking and a sound understanding of market movements. The workshop served as an industry-oriented learning initiative for students interested in finance and financial markets.

TOPICS DISCUSSED

1. Mastering Risk Management

The session highlighted the importance of identifying, understanding and managing financial-market risks. Students were introduced to the need for assessing potential risks before making financial decisions and to the role of risk awareness in navigating changing market conditions.

2. Understanding Commodity Markets

The workshop introduced commodity markets and their dynamics. The discussion focused on developing an understanding of how commodity markets operate and why awareness of market movements is relevant for participants and observers of the financial system.

3. Applying Strategic Thinking

The session emphasized the value of analytical and strategic thinking in financial decision-making. Students were encouraged to consider relevant information, assess possible risks and make reasoned decisions rather than relying only on assumptions.

4. Learning from an Industry Expert

The workshop offered students an opportunity to learn from the professional experience of Mr. Chandresh Kumar Gupta. His profile as a finance educator, securities-market expert and SEBI-SMART Trainer provided an industry-oriented perspective on the subject.

Overall, the workshop introduced students to key themes in risk management and commodity markets while highlighting the importance of informed decision-making and strategic thinking in finance. The session contributed to experiential learning and strengthened the connection between academic concepts and industry perspectives. The programme concluded on a note of appreciation and enthusiasm. Overall, the workshop served as a meaningful initiative to strengthen industry–academia interaction and promote practical learning among students, while deepening their understanding of business analysis and finance.

Glimpses of the Workshop
